Description

Fast, easy, permanent method of covering old, chipped, rusted bumper posts to eliminate future maintenance.

Application

Warehouses, manufacturing companies or any facility that has bumper posts already in place in or around the plant. The ultraviolet additive and the durable construction make Ultra-PostProtectors ideal for either indoor or outdoor applications.

Product Features

- High-density polyethylene shell — lightweight and durable, chemical-resistant, won't chip or discolor
- Contains ultraviolet and anti-static additives — color won't fade, even in bright sunlight
- OSHA safety yellow-easy to see, promotes a professional appearance
- Easy to install — just slides over existing bumper post for fast, permanent installation
- Fits posts up to 52" H
- Wall thickness: 1/8"

Composition

- High-density polyethylene
