

- Provides safe and convenient handling of acetylene and oxygen cylinders.
- Polyethylene construction protects cylinders from scratches and chipped paint — significantly reduces refurbishing needs, improves cosmetics.
- Numerous “built-in” features keep welding accessories close at hand for quick access.
- Rugged design optimizes the center of balance, assures safe handling and greater mobility.

- Large tool tray holds goggles, gloves and other welding tools.
- Two (2) molded openings hold optional, removable rod guards.
- Hose storage area keeps hoses safe, organized and out of the way.

Part# 1750

ULTRA-CYLINDER CART
Part# 1750
Dimensions: 32”L x 36”D x 40”H
Weight: 64 lbs.
Wheels: 16”, semi-pneumatic, nylon spokes
Regulations: OSHA 29 CFR 1910

Heavy-duty, 1 1/2” wide safety straps keep cylinders secure during transport and storage. Molded-in cylinder “stops” on base mechanically “lock” cylinder bottoms in place.
