

UltraPost Protector Plus®

Post Covers Put An End To Dents, Scratches and Constant Upkeep

- One-piece, lightweight design makes installation quick and easy. Simply slide over existing posts — no tools or hardware required.
- Bright, safety yellow color adds cosmetic appeal, helps identify entryways for trucks, etc. Custom colors available.
- All polyethylene construction — no maintenance required.
- Available in four sizes to accommodate most bumper posts and bollards. Other sizes available upon request.
- Rugged construction minimizes scratches, dents and other damage.
- UV inhibitor in resin resists degrading effects of sunlight, for years of service.
- New decorative models available.

Part# 1528	For 8" dia. Posts up to 52" H	Weight: 16 lbs.

UltraQuick Post®

A Bollard And A Post Protector All In One

- Save time and money — eliminate the two-stage process of pouring a bollard and then installing a Post Protector.
- Open-top polyethylene sleeve serves as "mold" for pouring concrete bollards or posts.
- 84" height allows QuickPost to be buried in substrate to insure secure installation.
- Polyethylene construction will not rust or corrode.

How To Install the Ultra-QuickPost

- Step 1: Dig hole approximately 30" deep.
- Step 2: Insert QuickPost into hole and backfill for stability.
- Step 3: Fill with concrete (rebar can be used for additional support).
- Step 4: Install top cap.
