

# UltraTech Product Applications for Construction

**Key Contacts:** Engineer, Environmental Manager, Site Manager/Supervisor, Stormwater Manager

Market Applications	Recommended Products
Concrete washout area	Concrete Washout Berm
Road construction projects	Erosion Guard (to slow-down erosion, mainly in ditches), Filter Socks
Generators, light towers, pumps or other pieces of equipment that could leak diesel	Containment Berms
Fuel tanks, whether double walled or not (double walled tanks meet containment regulations but not stormwater regulations)	Containment Sumps
Secondary containment for concrete curer, oils and other chemicals used onsite	Spill Pallets, Hard Top Plus
Extension cord management/protection	Sidewinders
Emergency spill response	Pop Up Pools, Drain Seals
Stock dirt piles and waste	Filter Socks, Erosion Guards
Protection of storm drains - Standard drop inlet with grate - Curb inlet	- Drain Guards, Inlet Guards - Curb Guard Plus
Ditch or hillside check dams to slow water/erosion	Erosion Guard
Construction site ponding, excavation holes getting filled with groundwater	Dewatering Bags
Construction site barriers for surrounding site, site entry and exit	Silt Dike, Gravel Bags, Filter Socks
Smoking areas	Smoke Stops
Post construction	Post Protectors, Corner Protectors, Wall Protectors

Ultra-Concrete Washout Berm

Ultra-Erosion Guard

Ultra-Containment Berm

Ultra-Containment Sump

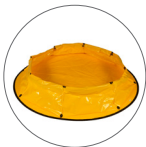

Ultra-Spill Pallet

Ultra-Hard Top Plus

Ultra-Sidewinder

Ultra-Pop Up Pool

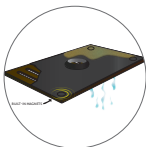

Ultra-Drain Seal

Ultra-Filter Sock

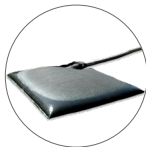

Ultra-Drain Guard

Ultra-Inlet Guard

Ultra-Curb Guard Plus

Ultra-Dewatering Bag

Ultra-Silt Dike

Ultra-Gravel Bag

Ultra-Smoke Stop

Ultra-Post Protector

Ultra-Corner Protector

Ultra-Wall Protector
